Greetings from PPAI President & CEO Paul Bellantone, CAE

On behalf of Promotional Products Association International, it is our pleasure to welcome you to this year's show. I would like to take this opportunity to commend your regional association on their contributions to the promotional products industry by creating a worthwhile forum for networking, business building, professional development and demonstrating the power of promotional products. Simply stated, promotional products work!

More than 110 years ago, PPAI, the world's largest and oldest international not-for-profit promotional products association, began its mission of serving its more than 10,500 members and a \$17.7 billion promotional products industry that has grown to more than 31,000 businesses and 432,000 professionals.

Our research clearly demonstrates the power of this advertising medium as the most cost-effective way to reach a targeted audience in a tangible, long-lasting and memorable manner. In fact, 82.6 percent of people can recall the company and brand on their promotional product and 50 percent have a favorable impression of the advertiser, while 83 percent of people like promotional products and 58 percent keep them for one to more than four years.

I encourage you to become a member of both PPAI and your regional association and join a membership dedicated to supporting the viability, visibility, credibility and community of the promotional products industry.

Once again I offer my sincere wishes for a successful show.

Warmest regards,

A handwritten signature in black ink that reads "Paul Bellantone". The signature is written in a cursive, slightly slanted style.
